

Davalen RapidValue Services: Lotus® Connections

Maximize the Power of Business Collaboration with Lotus Software and Davalen

Since 1993, Davalen has been helping clients architect, customize, and accelerate their Lotus software infrastructures. As an IBM Premier Business Partner, Davalen is able to provide consulting and training services with a certified and experienced staff. Our consultants and instructors work across industries and create a customized solution for all your development and administration needs. Along with experience comes a drive for leading edge technology. Davalen's staff can help your organization venture into the latest software areas such as XPages, Expeditor, and Lotus® Connections.

What is Lotus® Connections?

IBM Lotus® Connections is social software for a business. It empowers business professionals to develop, nurture, and remain in contact with a network of their colleagues; respond quickly to business opportunities by calling upon the expertise in their network; and discuss and refine new creative ideas with communities of coworkers, partners, and customers.

Lotus® Connections software delivers this capability through the following integrated components:

- Communities:** Create, find, join, and work with communities of people.
- Files:** A new personal file-sharing service.
- Wikis:** A new service allows you and your teams to collaboratively edit content.
- Profiles:** Quickly find the people and expertise you need.
- Blogs:** Present your ideas in a blog and get feedback from others.
- Bookmarks:** Save, organize, and share bookmarks using social bookmarking.
- Activities:** Gather the e-mails, IMs, documents, and more for business objectives.
- Home page:** Remain informed of social data updates from across the services.

How Can Davalen Help?

Successfully implementing social software for businesses requires a team effort. Davalen has the experience to put together a team of client and consultant staff that have the unique skill set to create a **Lotus® Connections** success story.

Led by a Davalen Social Engineer, our implementation teams consist of business analysts and software, IT and marketing specialists. Based on Davalen best practices scenarios and previous implementations, our teams know how to balance the need for technical infrastructure and business processes in order to spark spontaneous growth of a **Lotus® Connections** network.

Call us today to unleash the power of Lotus Connections in your organization.
